**Fatherhood:** There is a role only a father can fill and gifts only a father can give. In a culture that often does not favor fatherhood or masculine virtue, it is important to highlight the unique contributions of men, husbands and fathers. The world would be lacking without them.

**A Father is** ... a work in progress. Indeed, a dad's work is never done – in what he can learn from his family and what he can teach his children, in the sacrifices he can make and the rich rewards he can be given, in the love he can give out and also receive.

**A Father is** ... called by God the Father. This is the vocation that is the foundation of fatherhood. Of course, no earthly father will be like "our Father who art in heaven," but God does give certain graces to fathers who seek him out and follow his way.

**A Father is** ... an ordinary man who is called and equipped to do extraordinary things from day to day – work, provide, protect, pray, get involved with his family and be there as an example for his children and faithful to his wife.

**May God bless all fathers on this Father's Day!**
