**Church Maintenance Update:** Earlier this summer we mentioned the work that was going to be done at St. Patrick's. With paving in the driveway this week, the project is complete. Drainage issues around the basement entry to the church and in front of the rectory garage were dealt with. The work included removing some old pavement, adding new drain tile, and replacing the base of the current driveway. Paving of the driveway to include the handicap parking area in back of the church was completed. **Your donations to the monthly "Projects" collection made this project possible.** About three years of monthly collections were used to pay for the excavating and paving involved in this project. Thank you.
